

Bc. Stanislav Nikolaievskyi

TEST AUTOMATION ENGINEER · EMBEDDED SYSTEMS

Prague, Czech Republic

☎ (+420) 776 714 366 | ✉ stas.nikolaevski@gmail.com | 🌐 astralborn.github.io | 📱 astralborn | 📺 stas-nikolaievskyi

Summary

Test Automation Engineer with 4+ years in embedded systems, building automation frameworks and improving CI/CD pipelines. Delivered **40%+** coverage gains across **EtherNet/IP, VoIP**, and **web UI** platforms using **Python/Pytest** and **Playwright**. Identified **100+ defects** across industrial networking and **embedded intercom** devices, managing hardware testbeds and supporting release cycles.

Skills

Programming & Development	Python (proficient — framework design, custom tools), JavaScript, Bash
Test Automation & QA	Pytest, Playwright, HTTP API testing, Hardware testbed automation
Embedded & Protocols	TCP/IP, Ethernet/IP, VoIP/SIP, Linux, Wireshark, Packet-level debugging
CI/CD & Infrastructure	Jenkins pipeline automation, Git/GitLab workflows, WSL
AI & Developer Tools	GitHub Copilot, Copilot CLI, AGENTS.MD, Prompt & context engineering

Experience

2N Telecommunications

TEST AUTOMATION ENGINEER

Prague, Czech Republic

September 2025 — Present

- Owned **automated test suite design** for **embedded intercom** systems, improving critical and regression coverage.
- Built **50+ end-to-end UI tests** in **Python/Playwright**, integrating browser and device-level validation.
- Overhauled **CI pipeline** and built **3 internal tools**, cutting manual QA effort by **40%**.

Rockwell Automation

TEST AUTOMATION ENGINEER

Prague, Czech Republic

August 2022 — August 2025

- Built and maintained test suites for an **embedded Ethernet/IP networking library**, covering critical protocol behavior.
- Investigated and validated **100+ defects**, contributing to stable production releases.
- Enhanced the **automation framework** and maintained **hardware testbeds**, improving reliability and productivity.

Education

Czech Technical University in Prague | Faculty of Electrical Engineering

B.S. IN ELECTRICAL ENGINEERING

Prague, Czech Republic

June 2019 — February 2023

- Power engineering, motor control, and PLC automation** — supporting strong technical and systems-level foundation.
- Thesis: "Vehicle Kinetic Energy Recuperation" — [\[View online\]](#)
